DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 14, 18, 25-29, 50, 51 and 57-61 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morimoto. Morimoto teaches an infrared imaging device having first and second Fresnel lens elements ((2) in Figs. 1 and 6) in optical communication with each other. Although it is not specifically stated that the lenses are made of plastic or positive in power, it would be inherent that they be positive, since they are being focused onto the detector and could only be positive. It would have been obvious to one of ordinary skill in the art to make these lens elements from plastic such as PCTE or polyethylene, since the structure and operation of Fresnel lenses is well known in the field of infrared motion detectors. The first major surfaces face the image side of the device (see Figs. 1 and 6). Since these lenses operate in the IR portion of the spectrum, they operate in the 3-5 um and 8-14 um of the spectrum. Figs. 1 and 6 also show a housing.

Allowable Subject Matter

Claims 1-13 and 30-49 allowed.

Art Unit: 2873

Claims 15-17, 19-24 and 52-56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Reasons for allowance have been given previously.

Response to Arguments

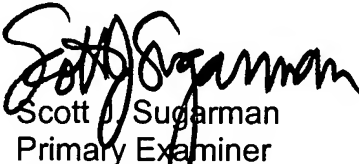

Applicant's arguments with respect to claims 14, 18, 25-29, 50, 51 and 57-61 have been considered but are moot in view of the new ground(s) of rejection.
